

Meehan's Lawn

Service, Inc.

6350 EASTLAND ROAD • BROOK PARK, OHIO 44142-1302 • (440) 243-8277
www.meehanslawnservice.com

EARLY SPRING APPLICATION

- _____ Lbs. of 13-0-4 Dry Granular Fertilizer w/.375% Evade Crabgrass control
- _____ Lbs. of 30-3-5 Dry Granular Fertilizer w/20% XCU
- _____ Gals. of Trimec 992 (1.1 to 2.4 oz. per .5 gal/1000 sq. ft.)

ABOUT TODAY'S APPLICATION

Today's application will help the lawn recover from Winter and should green it up. If you had snow mold or matted areas, you can do normal raking and Spring clean-ups without hurting today's application. See the information on snow mold on the back of this newsletter. Again this year we are using the best crabgrass control product available, to provide you the best possible control. We are the only company around that also applies controls in the event that crabgrass breaks the preventative barrier. Crabgrass usually becomes noticeable in July and August. If a problem arises, let us know and we'll get it taken care of.

We generally do not apply weed controls with this application. Temperatures are too cool for herbicides to be effective. Weeds will be treated with your next application. If you notice weeds before then, just give us a call and if weather conditions permit we will treat them at that time. Our intent is to reduce the amount of pesticides we apply to your lawn. The best time to control weeds is late April and May. This is precisely when your next application will be scheduled and when we target our weed applications.

We're now Tech Savvy!

Last year we moved into a new office and got a new computer program. We are all settled in and have gotten to know the program. Now it's time to put that to good use. We have started to offer special deals on extra services online and through emails sent to customers who have shared their email. **Please join them by sharing your email too!**

Don't worry your email will not be shared with anyone, we respect your privacy. We also **will not** send you emails every day like some of the companies I have dealt with. Throughout the season we will be sending money saving offers on Mowing, Mulch, core Aeration, and other services that will help protect and beautify your home and property.

Likewise, our website is up to date and you can send requests for service calls, ask questions, or find answers to many of your questions, and read newsletters online. We pride ourselves on personal service and will never have an automated phone system, a live person will always be ready to answer when you call. Check us out!

We help your lawn grow, help us Grow!

YOU ARE OUR BEST SOURCE OF ADVERTISING. PLEASE TELL SOMEONE ELSE ABOUT OUR SERVICE. This helps us grow and keeps our prices as low as possible without cutting our quality. You will receive \$5 in Meehan's Money for each person that becomes a customer. You can use this money to pay for any service that we offer throughout the year. Tell six friends and take \$5 off each application. Thank you in advance for your help!

SNOW MOLD

No Doubt snow mold is a problem this spring, the best thing to do is lightly rake the damaged area with a **leaf** rake. The disease will continue to grow as long as the grass stays matted down. Raking today will not harm the application that was applied. Begin mowing the lawn as soon as possible. This will help remove some of the snow mold and also the air circulation will help kill the disease. Chemical controls are not recommended. This is only a temporary condition that will go away as the grass plants begin to grow. Schedule a Spring Core Aeration to help heal snow mold scars and promote new growth.

MOWING AND WATERING TIPS

There is generally no need to water the lawn this time of year. Nature does a good job on its own. Rain or snow will not negatively affect our applications, and are needed to activate the fertilizer.

Mowing is very important. The three rules of mowing are to mow tall, mow sharp, and mow often. Please do not scalp the lawn first thing this spring. I heard the guy on the radio recommend this. I'm sure he means well, but he is not a lawn expert. You should start mowing tall right out of the gate. It is a good idea to get the spark plug and oil changed, and the blade sharpened and balanced. More tips and information are on our website

www.meehanslawnservice.com.

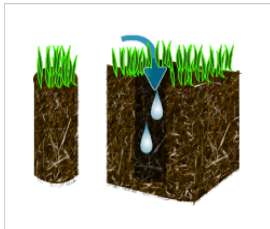

THERE IS STILL TIME TO SIGN UP FOR CORE AERATION, GRUB PREVENTION, LAWN MOWING, AND TREE AND SHRUB CARE

We have the best Tree & Shrub expert employed at our company. If you have your plants maintained by someone else, why not give us a try? Your landscape plants are an important part of your home's appearance. If you would like a free analysis and estimate on what we can do, give us a call!

Now is the time to schedule spring core aeration. This is recommended for lawns with thatch problems, or if you plan on using a sprinkler system this summer. If you water your lawn in the summer then this is the best way to get the most benefit from the water. Lawns aerated in spring retain more than 50% of the water which can lead to lower water bills and a healthier lawn. Our spring aerations are done in late April or early May when the roots are more active.

This is your last chance to schedule the Grub Prevention application. We offer this service at the lowest price possible but it needs to be applied with your next application. We encourage you to have this done and not have to worry about grub damage in fall. This application also controls most other insect damage throughout the season!

We still have openings available for weekly mowing. We offer mowing in certain cities for now. Give us a call for an estimate and we will let you know whether we offer this service in your area.

MULCH IS AVAILABLE

Once again we will offer the best-quality double shredded mulch. Colors available are brown, black and red. If you would like us to install it for you, the cost is \$70/cubic yard. If you are a do-it-yourselfer, and only want us to deliver mulch to you, the cost will be \$40/cubic yard (minimum delivery is 2 yards. Mulch available only in certain areas)

PSST. We'll be running A Facebook Special on mulch this spring so Get us your email address so you don't miss out on the deal!

Contacting us has never been easier.

Drop us a note with your payment, give us a call.
